**APTech Group Announced as Finalist in
Cincinnati Business Courier's 2011 Green Business Awards**

Awards to be Announced at March 3rd Awards Reception at Cintas Center

CINCINNATI, OH (January 17, 2011) – APTech Group, Inc. has been selected as one of the *Cincinnati Business Courier's* **2011 Green Business Awards** finalists in the **Green Market Strategy** category. Other categories include: Green Design, Green Education/Outreach and Green Policy.

The *Cincinnati Business Courier*, in partnership with the U.S. Green Building Council Cincinnati Regional Chapter, created the Green Business Awards to honor and recognize people, companies and organizations that are demonstrating leadership in sustainable practices in a variety of facilities and projects.

“We are proud and humbled to be among the finalists for the Courier’s Green Market Strategy award. It is gratifying to be recognized for efforts that are consistent with APTech’s ongoing commitment to develop and manufacture sustainable products for the water treatment industry,” said James Heimert, CEO of APTech Group.

APTech Group and the other Green Business Award finalists will be honored at an awards cocktail and hors d’oeuvres reception on **Thursday, March 3, 2011**, at the Cintas Center at Xavier University in Cincinnati Ohio. At the reception, APTech will receive on-stage recognition and a Finalist Award. Once all of the Finalists have been recognized, the *Courier* will announce a winner in each of four categories.

APTech’s EnduroSolv® Water Treatment products enable cleaner, greener and safer cooling tower, closed loop systems and boiler water treatment solutions. EnduroSolv® is a proprietary form of solid water treatment chemicals that allow the mixing of several chemical components into one chemical, without the addition of hazardous chemicals. The resulting solid products are less expensive to ship and safer to store and use than traditional liquid water treatment chemicals. APTech offers a complete line of EnduroSolv® products, utilizing best of breed, proven water treatment chemistry combinations designed to correct most types of raw water problems, such as varying ranges of hardness, pH, and alkalinity.

EnduroSolv® products are supplied and serviced by over 100 distributors in the US. Additionally, EnduroSolv® products are exported to Canada, Mexico, South America, China and Europe. APTech Group was nominated for the EPA’s 2010 Presidential Green Chemistry Award.
